THIS IS UNEVALUATED INFORMATION

1. As of 1 June 1954, the structure of the Direction of the Main Administration of Radio and Telecommunications Technology (HV RFT) in the East German Ministry for Machine Construction was changed for the purpose of increasing its administrative efficiency. This increase was considered imperative because of the underfulfillment of the production plan in the enterprises under HV RFT.
2. The change provides that the head of HV RFT, Adolf Hegemann, will be assisted by two Technical Heads, each responsible for one of the two groups into which the Main Administration was divided. These men are:
 - a. Albrecht (fnu) Technical Head of Gruppe Radio
 - b. Heinz Andreas, Technical Head of HV Telecommunications Technology (Fernmeldetechnik). Andreas was formerly in HV Funkwesen under the Ministry for Post and Communications.
3. Furthermore, all enterprises under HV RFT were divided into seven Active Groups (Aktivgruppen). Two meetings per month are called by the Active Groups for the purpose of discussing methods of increasing production.
4. The following is a complete list of the seven Active Groups with the enterprises which come under them:

a. Gruppe Fernmeldetechnik

The Fernmeldewerk in Arnstadt, Leisig, Bautzen, Nordhausen.

The Sachsenwerk Radeberg

The Werk fuer Bauelemente Grossbreitenbach
